### Note1:

Graduates could choose some credits (8 credits for Master degree and 10(6) credits for Doctoral degree) of outside institute elective courses. But for international students, there is no credit limit. Just fill in the table (The Consent of Outside Institute Elective Credits for international Students) and then sign by your advisor and director. Do keep this consent until you apply for degree examination.

### Note2:

**a. The compulsory course “Seminar” is divided to seminar (1), seminar (2), seminar (3), seminar (4).** Be sure to check your course list or transcript each semester. If you find any mistake, please contact department Office staff as soon as possible.

**b. For international students, no matter which seminar you chose, just join the seminar group special for international students** when you come to seminar course.
